# Humana People to Peop 2023

## **About Us**

Humana People to People spans the globe through 29 independent member associations, each one with a firm base in their own country. Our core development work is in community development, sustainable agriculture and environment, health, education and the collection and sale of second-hand clothes.

In 2023, we reached 17.9 million people through implementation of 1,584 project units across Africa, Asia, Central and South America. We protect the planet, build communities and support people by connecting them with others in transformative programmes, unleashing their potential for positive change and action.

Working side by side with the people in their communities and our innumerable partners, we align with the UN 2030 Agenda and support countries as they strive to meet the UN Sustainable Development Goals.

# Community Development

Our Community Development programmes take place in communities where life needs to improve. We support social cohesion and together we find opportunities to create progress.

In our Community Development projects, local Action Groups are a main structure. The Action Groups place the control of development processes and decision-making into the hands of the people who are affected. People get together, identify their needs and decide on actions to take.

# Sustainable Agriculture & Environment

Smallholder farmers play a crucial role in establishing sustainable food systems locally, fighting hunger and malnutrition in their communities.

Our sustainable agriculture concept, Farmers' Clubs, places farmers and their families at the centre of farming activities. The clubs develop ethical, sustainable production and regenerative farming practices that farmers can implement together in their communities, in harmony with nature.

## Health

Our health programmes begin with people and not with disease; we respond to how people live their lives.

Our health projects have always built on the active participation of the people to gain control of HIV and AIDS, TB, malaria, malnutrition, as well as non-infectious diseases. The approach is communitycentred and people-led as it organises, supports and strengthens people's responsive capacities.

## **Education**

Education is the foundation for peace, solidarity, inclusiveness and sustainable development. Education is as a fundamental human right and must be publicly accessible to all.

Our education programmes promote inclusiveness, are engaging and are participatory in their methods, relevant and purposeful in their content and build knowledge, understanding and agency in the students to address 21<sup>st</sup> century challenges as an ultimate impact.

# Collection and Sale of Second-hand Clothes

Our second-hand clothes collection contributes to sustainability and circularity in textiles through reduction of waste, saving precious resources through reuse, providing affordable clothing to people in the North and in the South – and it ultimately enables us to undertake invaluable development work.

By collecting, sorting and selling used clothes, we are promoting a sustainable circular economy, creating jobs and contributing to local and national economy growth.

# Sources and expenditure of funding

In 2023, our members spent approximately US\$129 million on education and development projects worldwide.

Sources of Funding		Expenditure of Funding
44.9%	Governments	54.7% Health
24.6%	Funds raised through second- hand clothing	<b>24.4%</b> Education
17.8%	Multilateral support	11.9% Community Development
8.8%	Companies, foundations and NGOs	9.0% Agriculture and Environment
3.9%	Other income	<b>TOTAL 100%</b>
TOTAL	100%	N-ZOT

### Partnerships

**Partnerships are** a vital part of what we do and offer symbiotic relationships that help our projects to prosper. We would like to thank all our partners for their continued support and commitment to work with the people on the ground, pursuing much-needed development for positive, lasting change.

#### **Good Governance**

We are committed to adhering to the highest standards of accountability, transparency and good governance. In 2018, we were officially certified for good governance policies and procedures, including their implementation, by the internationally renowned certification company, Société Générale de Surveillance (SGS) NGO Benchmarking Standards.

In 2021, the certification was renewed, with a score of 96.5%, which places the Federation among top 5% of organisations audited by SGS.
